

What is Environment?

Environment is the biotic and abiotic surrounding of an organism, and includes particularly the factors that have an influence in their survival, development and evolution.

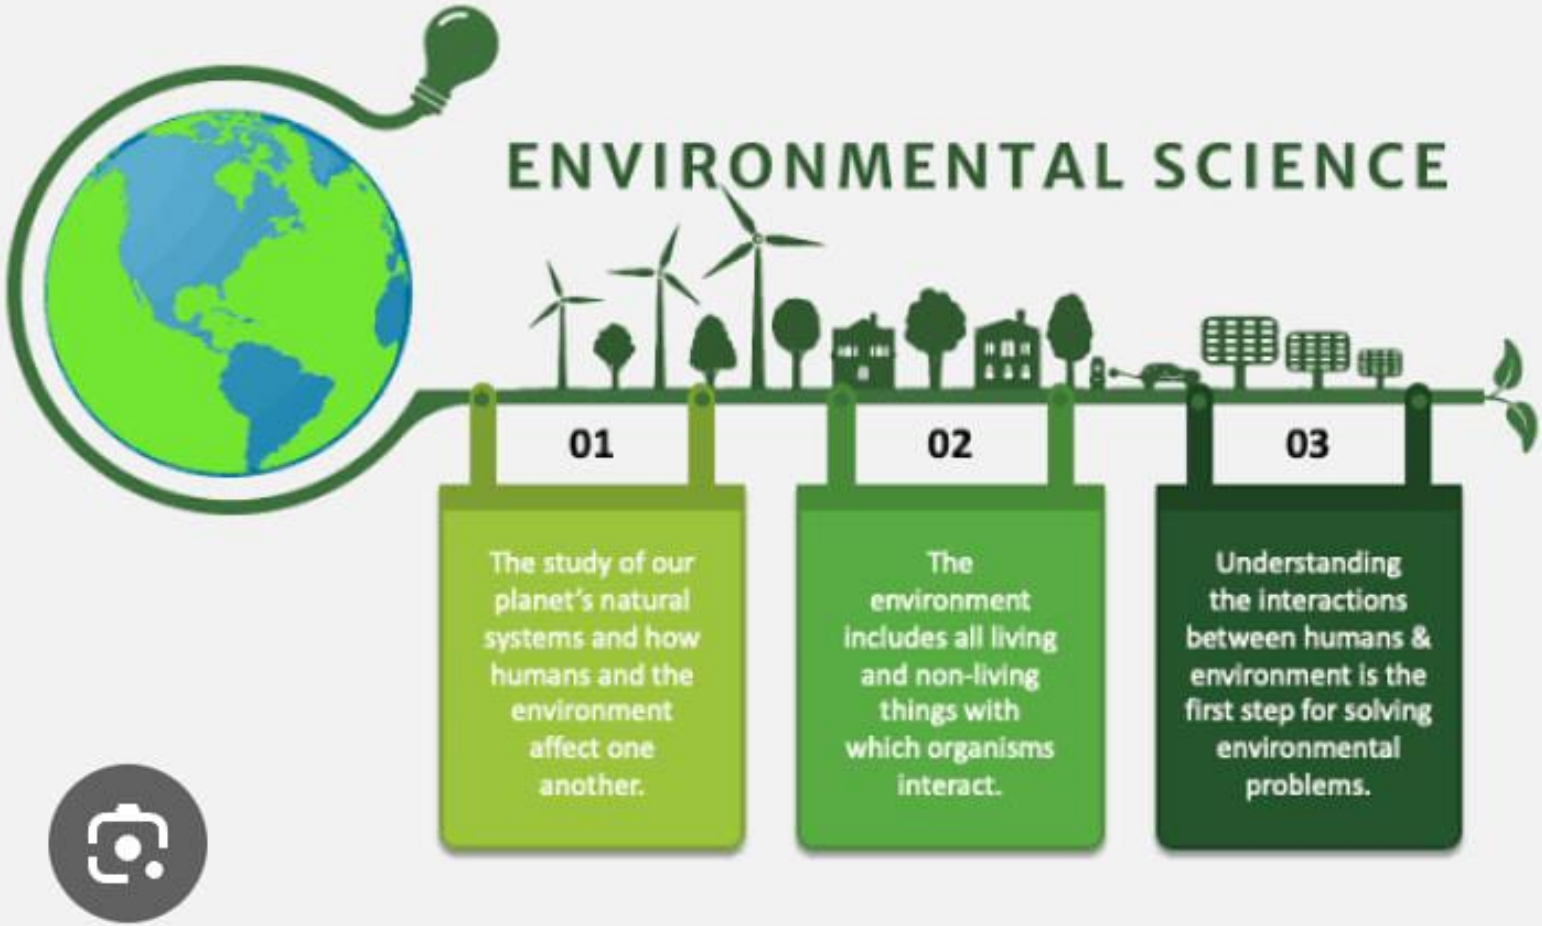

A graphic illustration for a 'Green Environment & Ecology Template'. It features a dark blue background with a large white semi-circle on the right side. Inside the semi-circle, there is a stylized landscape with green hills, trees, wind turbines, and a blue car. Above the landscape, there are green and blue butterflies, a sun, and birds. The text 'GREEN ENVIRONMENT & ECOLOGY TEMPLATE' is written in white and green on the left side. A camera icon is in the bottom left corner.
