Self-Made Assignment - HTML Basics

Line Break

Write HTML code for the following box using various heading tags, paragraph tag and Br tag.

Current Affair: The 2024 Global Climate Summit

Summit Objectives

The summit aims to:

- Establish new global carbon reduction targets
- Promote renewable energy technologies
- Enhance climate resilience and adaptation strategies

Key Participants

Notable participants include:

- United Nations Secretary-General
- Leaders from major economies such as the USA, China, and the EU
- Influential climate activists and researchers

Major Announcements

During the summit, several key announcements are expected:

- A new international carbon pricing framework
- Commitments to large-scale reforestation projects
- Initiatives to fund climate change research and technology

Public Reactions

The public's response has been mixed:

- Many are hopeful that concrete actions will follow
- Critics argue that past summits have not met their goals

Looking Ahead

In the coming months, attention will shift to:

- Monitoring the implementation of summit agreements
- Evaluating the effectiveness of new climate policies
