Self-Made Assignment - Java Script

Loops in Javascript

1. Write a JavaScript Code that using prompt box to enter a number greater than 10. The program should keep asking until the user enters a valid number (greater than 10). Once a valid number is entered, the program should display "Valid number entered!" and stop.

2. Write a Javascript Code that prompts the user to enter a positive number. If the user enters a negative number, it should ask again until a positive number is entered.
