Electric cars are the future in the auto industry. As climate change gets worse, governments are going to start limiting the number of gasoline cars being built. The cost of gas will continue to rise, which will make it harder for people to afford to run gas powered cars. As battery technology improves, electric cars will be able to travel further on a charge and cost less to buy. Eventually most gas powered cars will be replaced by electric cars.

Life a journey travelled on the highway of time. Therefore, time is precious. Every moment in life should be properly utilized, as time, once lost, can never be recovered. And there is no way to stop should be properly utilized, as time, once lost, can never be recovered. And there is no way to stop the hands of time from ticking. Hence right from childhood, one should learn to appreciate the value of time. Just as one should learn to make the best use of money, Should learn to make the best use of time, too. It has been rightly said, 'Time and tide wait for none.' People who realize the value of time, believe in action rather than procrastination. They use it to acquire knowledge and various useful skills.
