Introduction to Cascading Style Sheets

Use the shorthand `font` property to set the font of a paragraph (`p`) to 16px, italic, and bold, with a line height of 1.6 and font family of Arial.
Create a heading (`h1`) that is bold, has a font size of 36px, and is centered horizontally.

Sample Speech on Time Management

Prioritisation and Time Management

There will be occasions when we can't get everything done on time. Even though we plan and schedule time and execute everything well, there might be more still left to be done. So the only possible solution that we have is working on things that really need attention. Prioritise things. Utilise time well and do what's more important for you. Prepare a list based on your urgency and schedule your tasks accordingly. Make sure you are doing it on time, finish it perfectly, and shift to the next one. It's the only possible way how things in life can be done.
