Self-Made Assignment -Structure and Union in C

Arrays and Structures in C Language

Write a C program to:

1. Declare an array of integers.
2. Take input from the user to fill the array.
3. Find and display the largest element in the array.

Sample Input:

Enter 5 integers: 12 45 23 56 78

Sample Output:

The largest element is: 78
