About Me

Hello, my name is **Varun.**

*I am a software developer passionate about technology and innovation.*

In my free time, I enjoy *reading books* and *playing chess*.

My motto in life is: "Never stop learning."

I started my career 10 years ago, but it feels like just yesterday!

My favorite equation is Einstein's  $E = mc^2$ .

Chemical formulas fascinate me, especially **H<sub>2</sub>O** (water).
