Self-Made Assignment - DHTML

Introduction to Cascading Style Sheets

Write an HTML and CSS code to:

- Create a heading with red text, aligned to the center.
- Create a paragraph with green text, aligned to justify.
- Create a heading with underlined and uppercase text.

Welcome to CSS Text Styling

Social media is a popular, interactive platform that allows people to connect, share information, and communicate online: Benefits Social media can be used to share information, learn, and form friendships. It can also help people reconnect with others they've lost touch with. Social media can also be used to promote products, ideas, and companies.

CSS TEXT TRANSFORMATIONS

This paragraph has an overline decoration and is italicized. The heading is in uppercase with an underline.
