Self-Made Assignment - Notepad

Using Cut, Copy and Paste in Notepad

Instructions:

1. Open **Notepad** on your computer.
2. Copy and paste the following paragraph into Notepad.

Paragraph:

"In recent years, technology has evolved at an unprecedented rate, transforming the way we work and live. From the rise of smartphones to the growth of artificial intelligence, the world has become more connected. While these advancements have brought about many benefits, they have also presented new challenges. **Society must adapt to the rapid pace of technological change, balancing innovation with caution.**"

Tasks and Expected Output:

Task 2: Copy and Paste

- **Objective:** Duplicate a section of text and paste it elsewhere in the document.
- **Steps:**
  1. Select the sentence: "Society must adapt to the rapid pace of technological change, balancing innovation with caution."
  2. **Copy** the sentence (Ctrl + C).
  3. Move your cursor to the end of the document and **Paste** the copied sentence (Ctrl + V).
  4. Save the document with a new name, e.g., "CopyPaste\_Practice\_2.txt".

Expected Output After Task 2:

"From the rise of smartphones to the growth of artificial intelligence, the world has become more connected. In recent years, technology has evolved at an unprecedented rate, transforming the way we work and live. While these advancements have brought about many benefits, they have also presented new challenges. Society must adapt to the rapid pace of technological change, balancing innovation with caution. **Society must adapt to the rapid pace of technological change, balancing innovation with caution.**"
