Self-Made Assignment - Notepad

Using Find and Replace in Notepad

1. Find Developments and Developments replace with development.

2. Find technology and technology replace with technologies.

Ever since British rule, India has been in talks all over the world. After gaining independence, it is science and technology which helped India advance through times. Now, it has become an essential source of creative and foundational scientific developments all over the world. In other words, all the incredible scientific and technological advancements of our country have enhanced the Indian economy.

Subsequently, science and technology have assisted in advancing various fields including Mathematics, Astrophysics, Space technology, Nuclear energy and more. Some fine examples of these developments are the railway system, smartphones, the metro system, and many more.

Right from connecting with people to using digital products, everything involves science and technology. In other words, it has made life easy and simple. Moreover, humans now have to live a simple life.

Science is the study of the natural world by collecting data through a systematic process called the scientific method. And technology is where we apply science to create devices that can solve problems and do tasks. Technology is literally the application of science. So, it really is impossible to separate the two.
