Self-Made Assignment - DHTML

Working With Class In CSS

Make html file and add 2 h1 headings.

A computer is a reliable gadget that can store all your private information with security protection. In order to operate a computer, we need an operating system and someone to operate it.

Write this first h1 heading. Create a class called `.highlight` and apply the following styles: Change the background color to yellow. Set the text color to blue. Add 10px of padding around the content.

Modern digital electronic computers can perform generic sets of operations known as programs. These programs enable computers to perform a wide range of tasks.

Write this second h2 heading. Create a class called `.highlight` and apply the following styles: Change the background color to green. Set the text color to blue. Add 5px of padding around the content.
