Self-Made Assignment - Java Script

Switch Statement in Javascript

Ques 1:-Write a program that asks the user using Prompt Box to enter a letter grade (A, B, C, D, E). Based on the input, print an evaluation message.

- If the user enters 1, display "A."
- If the user enters 2, display "B."
- If the user enters 3, display "C"
- If the user enters 4, display "D"
- If the user enters 5, display "E."
- For any other number, display "Invalid grade."
- Use # "#FFDDC1"; // Light Pink for Background color

Ques 2: Write a program that takes a number from the user using Prompt Box and checks if the number is odd or even using a switch statement.

- If the user enters 1, display "Odd."
- If the user enters 2, display "Even."
- For any other number, display "Invalid Number."
- Use "#F7A7B2"; // light rose for Background color.
