Self-Made Assignment - MS Word

Find and Replace in MS Word

Make this following file and Save file with the name "Find Replace Assignment"

"Microsoft Word is one of the most widely used word processing software programs around the world. It is designed to help users create, format, and edit documents for various purposes such as reports, resumes, and assignments. Word provides many useful features like spell check, font customization, and the ability to insert images and tables. Word is compatible with both Windows and Mac systems, making it accessible to a wide range of users. Many businesses and educational institutions rely on Word for document management."

- Replace "Word" with "MS Word".
- Replace "assignments" with "projects".
- Replace "businesses" with "companies".

"The internet has become an essential part of our daily lives. It allows us to communicate instantly with people across the globe, access vast amounts of information, and even shop online. Web browsers like Chrome, Firefox, and Safari make it easy to browse websites and interact with content. The internet has revolutionized industries such as education, healthcare, and entertainment, making information more accessible and improving services."

- Replace "internet" with "the web".
- Replace "Chrome" with "Google Chrome".
- Replace "information" with "data".
