Self-Made Assignment - MS Power Point

Chart Layout and Formatting in MS Excel

Dataset:

Month	Mathematics	Science	English	Computer
January	78	85	74	90
February	82	88	79	92
March	85	90	81	95
April	87	92	83	97
May	89	94	85	98
June	92	96	87	99

Tasks:

Create and Customize a Line Chart

1. Create a **Line Chart** to show student performance trends in Mathematics, Science, English, and Computer over six months.
2. Click on the chart and go to the **Chart Design** Tab.
3. Apply a **predefined chart style** (Example: Style 4).
4. Add a **Chart Title** and rename it "**Student Performance Over Time**".
5. Change the line color for each subject to a **different color** of your choice.

Create and Customize a Bar Chart

- Select the **Month** and **English** columns.
- Insert a **Bar Chart** to display English marks for each month.
- Add a **Chart Title** as "**English Performance Over Months**".
- Change the bar color to **orange**.
- Enable **Data Labels** to display the marks on the bars.
