Self-Made Assignment - MS EXCEL

Chart Layout and Formatting in MS Excel

Dataset:

Month	Mobile Sales	Laptop Sales	Tablet Sales	Smartwatch Sales
Jan	500	300	200	150
Feb	600	350	250	180
Mar	700	400	270	200
Apr	800	450	300	220
May	750	420	290	210
Jun	900	500	350	250

Tasks:

Create a Chart:

- Insert a Column Chart using the given dataset.
- Ensure that the x-axis represents the months and the y-axis represents the sales figures.

Change Chart Layout:

- Add a **Chart Title** as "Monthly Sales of Electronic Products".
- Label the x-axis as "Month" and y-axis as "Sales Units".
- Add data labels to display exact sales values.

Modify Chart Formatting:

- Change the chart style to a different predefined format of your choice.
- Apply a gradient fill background to the chart.
- Change the color of the "Laptop Sales" bars to **Red**.

Insert and Modify a Pie Chart:

- Create a Pie Chart for **Smartwatch Sales** across all months.
