Self-Made Assignment - C Language

First C Program

Question:

Write a simple C program that prints the following message on the screen:

```
Hello, World!  
Welcome to C Programming.  
My name is [Your Name].  
My course is [Your Course Name].
```

Instructions:

- Use #include <stdio.h>.
- The output should be displayed using the printf() function.
- Add comments to explain your code.
- Save your file with a .c extension (e.g., first_program.c).

Example Output:

```
Hello, World!  
Welcome to C Programming.  
My name is Amrit.  
My course is DCA.
```
