Self-Made Assignment - C Language

Function Arguments and Return Value in C Language

Assignment Title: Find the Maximum of Two Numbers:

What the Program Should Do:

1. Ask the user to enter **two integers**.
2. Send both numbers to a function.
3. The function compares the numbers and **returns the larger one**.
4. The main function displays the result.

Instructions:

- Create a function:

```
int findMax(int a, int b);
```

- This function should take two integers as arguments and return the larger one.
- In main(), read two numbers from the user.
- Call the function with these numbers and store the return value.
- Print the larger number.

Output:

Output

```
Enter first number: 35  
Enter second number: 65  
The maximum number is 65
```
