Self-Made Assignment - Computerized Accounting Tally

Inventory Information-Inventory Voucher in Tally

Match physical stock in tally:

1. Your system shows you have **50 units of Item A (Books)**, but during a physical stock check, you find only **45 units** in your warehouse. So, you need to reduce **5 units** in Tally to match the physical count.
2. Your system shows you have **80 units of Item B (Laptop Bags)**, but during a stock check, only **75 units** are found. So, you need to reduce **5 units** in Tally to match the physical count.
3. Tally shows **100 units of Item C (Battery Packs)**, but only **92 units** are present in the warehouse. **8 units** are found expired.
5. Inventory shows **40 units of Item D (Earphones)**, but physical stock is **45 units**. So, you need to increase **5 units** in Tally to match the physical count.
6. System shows **150 units of Item E (File cover)**, but only **200 units** are in the warehouse. So, you need to increase **50 units** in Tally to match the physical count.
