## Self-Made Assignment - CoreIDRAW

Advanced Object Management

### 1. Set Up Document

- Open CoreIDRAW.
- Go to File > New.
- Set units to Pixels.
- Set page size: Width: 1050 pixels, Height: 600 pixels
- Orientation: Landscape.

### 2. Create Background Base

- Select the Rectangle Tool (F6).
- Draw a rectangle: 1050 x 600 px.
- Fill: White.
- Remove outline (Right-click the "No Color" swatch in the color palette).

### 3. Draw the Dark Top-Left and Bottom-Right Shapes

- Use the Bezier Tool or Freehand Tool:
- Draw two trapezoid-like shapes:
- Top-left: 1 black shape slanting inwards.
- Bottom-right: a mirrored black shape.
- Fill: Black (#1D1D1D or similar).
- Use red triangles (see next step).

Self-Made Assignment - CoreIDRAW

Advanced Object Management

4. Draw Red Triangles (Accent Shapes)

- Use the **Polygon Tool** or draw manually with the **Bezier Tool**.
- Position:
- Top-center.
- Bottom-center.
- Along the left and right edges.
- Fill color: **Red** (#E60000 or similar).

5. Create Center White Hexagon Panel

- Draw a **Hexagon** using the **Polygon Tool** (6 sides).
- Convert to curves: **Ctrl + Q**.
- Stretch and reshape to match the angled white section.
- Duplicate and rotate/mirror for both left and right halves.
- Fill: **White**.
- Add a **gray shadow line** on the center seam using **Drop Shadow Tool** or a thin gray line.

6. Add Logo and Company Info (Right Side)

- Use the **Text Tool (F8)** to insert:
- "YOUR LOGO" (small, gray text).
- "COMPANY NAME" (bold, large).
- Import or draw a placeholder logo icon (use **Ellipse + Intersect** tools or import an SVG).
- Align everything **centered** on the right side.

7. Add Name and Contact Info (Left Side)

- Use **Text Tool (F8)**:
- Name: **Bold** and large.
- Position: **Regular** or **Light** font.
- Contact info lines:
- Use a simple **icon + text** format.
- Icons: Use a symbol font like **FontAwesome**, **Wingdings**, or import SVG icons.
- Line 1: Phone number
- Line 2: Email address
- Line 3: Website
- Line 4: Address
- Suggested icon sizes: **18-22 px**.

## 8. Font Styling

- Use modern sans-serif fonts for clarity:
- Suggested fonts:
  - Montserrat, Poppins, Arial, or Roboto
- Font sizes:
  - Name: 36-40 px
  - Title: 20-24 px
  - Contact info: 18-22 px
  - Company name: 38-42 px

## 9. Align and Group

- Use **Align and Distribute** (Arrange > Align and Distribute) to ensure all elements are evenly spaced and aligned.
- Use guidelines or rulers to align left and right sections perfectly.
- Group sections if needed using **Ctrl + G**.

## 10. Export for Print or Web

- Go to **File > Export**.
- Choose **PNG, JPG, or PDF**.
- Resolution: **300 DPI** for print.
- Enable **bleed area** (typically 30 px around edges) if needed.
