Self-Made Assignment - Visual Basic

Menu Bar and Pop Up Menu in VB

You have to Create this Assignment in VB

Create a Windows Form with a button. When the user right-clicks the button, a menu should appear with options: Open, Save, and Exit. Clicking each item will perform a simple action (like showing a message or closing the form).

- Create a Windows Forms App in Visual Studio 2022 and add a Button to the form.
- Set the button's Name to btnMenu and Text to Right-click me!.
- Add a ContextMenuStrip from the Toolbox.
- Add three menu items: Open, Save, and Exit.
- Assign the ContextMenuStrip to the button using the Properties window.
- Double-click each menu item to add code:
 - Open → `MessageBox.Show("Open clicked")`
 - Save → `MessageBox.Show("Save clicked")`
 - Exit → `Me.Close()`
