1. Create a New Document

- Open InDesign.
- Go to **File > New > Document**.
- Choose **A4** or **Custom Size** (e.g., 1920x1080 px if it's for digital).
- Click **Create**.

2. Draw the Central Circle

- Select the **Ellipse Tool (L)**.
- Hold **Shift** while dragging to make a perfect circle.
- **Fill:** Light Purple
- **Stroke:** Black or Dark Gray
- Align it to the center using **Align Panel (Window > Object & Layout > Align)**.

3. Add the Center Text

- Use the **Text Tool (T)**.
- Click inside the circle and type
- **Font:** A clean sans-serif (e.g., **Montserrat, Arial, or Helvetica**).
- **Center-align** the text.
- Adjust size to fit nicely inside the circle

4. Add Side Text Features

- Use the **Text Tool (T)**.
- Type each feature as separate text boxes:
- **Left:**
- Layout control
- Multi-page document support
- Advanced text customisation
- **Right:**
- Collaboration and integration

- Interactive digital publishing
- Automation and scripting capabilities
- Align the text boxes vertically on each side of the circle.

5. Draw Connecting Lines

- Use the Line Tool (L).
- Draw dashed lines from each feature to the circle.
- Stroke settings:
 - Color: Purple
 - Type: Dashed
- Use Shift to keep lines straight.
- Customize Colors & Fonts
- Use Swatches Panel to define and apply:
 - Purple tones (for text and lines)
 - Light purple fill for the circle
- Keep the font consistent throughout.

6. Final Touches

- Ensure alignment using Smart Guides and Align Panel.
- Use Layers Panel to organize:
 - Background
 - Shapes
 - Text
- Save your work: File > Save As (.INDD)
