Self-Made Assignment - Java Script

JavaScript Forms and Validations

Ques 1-Create an HTML form with the following fields:

- Full Name (Text)
- Email Address (Text or Email)
- Password (Password)
- Confirm Password (Password)
- Submit Button

Use JavaScript to implement the following validations:

- All fields must be filled (No empty fields allowed).
- The Email must contain @ and ., in the correct position.
- The Password must be **at least 6 characters long**.
- The Confirm Password must **match the Password**.

If any validation fails:

- Show an appropriate alert() message.
- Prevent the form from being submitted.
- If all validations pass:
- Show alert("Form submitted successfully!").

Output

Registration Form

Full Name:

Email Address:

Password:

Confirm Password:

-  Banking & Insurance
-  Central Govt. Service
-  State Govt. Services
