Self-Made Assignment - Adobe Illustrator

Working with Paths and Anchor Points

### 1. Set Up Your Artboard

- Open Adobe Illustrator.
- Create a new document (e.g., 1080x1080 px).
- Drag and drop your reference image (the one you uploaded) into Illustrator and lock it on a separate layer for tracing.

### 2. Create the Cup & Steam Design

- **Cup Shape**
- Use the **Ellipse Tool (L)** to make the top of the cup (a horizontal oval).
- Use the **Pen Tool (P)** to draw the body of the cup (trapezoid or curved shape).
- Use the **Ellipse Tool** again to draw the inner liquid.
- Use the **Pen Tool** to draw the handle on the right side.
- Combine and adjust shapes using **Pathfinder > Unite** or **Minus Front** as needed.
- **Steam Swirl**
- Use the **Pen Tool (P)** to manually trace the steam swirl.
- Make sure the curves are smooth – use the **Anchor Point Tool (Shift+C)** to refine.
- Apply a white fill with no stroke.

### 3. Create the Background Circle & Rays

- **Main Circle**
- Use the **Ellipse Tool (L)** to draw a large dark brown circle behind the cup.

Self-Made Assignment - Adobe Illustrator

Working with Paths and Anchor Points

- Sunburst/Rays
  - Draw narrow triangle (Pen Tool) from the edge of the circle toward the center.
  - Duplicate and rotate it around the center.
  - Group all rays, place behind the cup, and **mask or clip** them inside the circle.
4. **Add the Text**
- "Bandrek Kita" Text
  - Use the **Type Tool (T)**.
  - Select a script font similar to the one used (e.g., **Lobster** or **Pacifico**).
  - Set the color to **orange** and apply **stroke or shadow** using the **Appearance Panel**.
  - "SEJAK 1960" Text
  - Use a sans-serif font like **Montserrat** or **Arial**.
  - Place it inside a small banner.
  - Use the **Pen Tool** or **Rectangle Tool** to create the banner shape, add small ends/flags.
5. **Color & Gradient**
- Use **Eyedropper Tool (I)** to pick colors from the original image if needed.
  - Apply flat colors or subtle gradients to add depth.
6. **Final Touches**
- Group all elements (Ctrl+G) and align them properly.
  - Add any drop shadows or effects via **Effects > Stylize > Drop Shadow**.
  - Save your file as .AI and export as .PNG or .JPG as needed.
