HTML Assignment Instructions (Using Image & Anchor Tag)

Create a webpage named favorite_place.html by following the steps below:

Instructions

1. Add a **main heading** using the <h1> tag with the title: **"My Favorite Place"**
2. Insert an image of a place using the tag.
 - o Use the image file name **tajmahal.jpg**
 - o Set the width to **300px**
 - o Add an **alt text** describing the image (e.g., *"Taj Mahal in India"*)
3. Below the image, add a paragraph using the <p> tag describing the Taj Mahal.
 - o Include at least one **bold word** using the tag.
4. Add a **clickable link** using the <a> tag.
 - o The link should go to a website with more information about the Taj Mahal.
 - o It should open in a **new tab** using target="_blank".
5. Add another paragraph explaining why you chose the Taj Mahal as your favorite place.
6. Save the file and open it in a browser to check your output.

Instructions:

This is an image of the famous Taj Mahal located in Agra, India. It is known for its stunning white marble architecture and historical importance.

To learn more about the Taj Mahal, click here: [Official Taj Mahal Website](#)

I chose this place because it is one of the most beautiful monuments in the world, and millions of people visit it every year to admire its beauty.
