Q1 Computer is a electronic device that can store find and storage information, calculate amount and control other machine

C - Common

O - operating

M - Machine

P - Particular

U - Using for

T - Training

E - Education

R - Research

Q5 Speed - A computer works with Higher much speed and accuracy compared to humans while performing mathematical calculation computers can process millions of instructions per second. The time taken by computer per second. The time taken by computer for this operation is microseconds and nanoseconds.

Accuracy - A computer perform calculation with 100% Accuracy. Errors may arise due to data inconsistency or library

Intelligence - A computer can perform million of
